

PUTU AYU DEANISA ALMA PUTRI

JUNIOR BUSINESS SYSTEMS | IT UNDERGRADUATE

081339925118 | hopegekdea@ | [linkedin](#)

6th-semester Information Technology student with experience in business systems and web applications. Familiar with ERP environments through Odoo system support and interested in how technology improves business processes and customer operations.

EDUCATION

Bachelor of Information Technology

Sept 2023 - Present

- **Current GPA:** 3.83 / 4.00
- **Relevant Coursework:** Software Engineering, Database Systems, Computer Networks, Algorithm & Programming.

WORK EXPERIENCE

Odoo & Web Application Assistant (*Viskal Consulting*)

Jan 2026 - March 2026

- Maintained the Odoo ERP system and assisted in configuring HR and Attendance modules for internal operations.
- Managed website updates using WordPress, including publishing content and improving basic SEO.
- Created promotional flyer designs to support marketing activities.

Coding Mentor **The Cube Group** (*Assignment at SD 03 Pecatu*)

Sep 2025 - Dec 2025

- Designed a structured coding curriculum introducing fundamental algorithms and logical thinking using Scratch.
- Evaluated students' code to identify logic errors and guided them through the debugging process to find solutions.
- Monitored student progress and evaluated code to identify logic errors and guide structured problem solving.

Computer Network Practicum Assistant *Udayana University*

Apr 2025 - Jun 2025

- Facilitated network lab sessions and diagnosed connectivity issues using Cisco Packet Tracer and Linux.
- Mentored first-year students in understanding network protocols and topology design.

Assistant Accounting Staff *BIASA Group*

Jul 2023 - Aug 2023

- Conducted rigorous data entry and verification for financial records, ensuring high accuracy and data integrity.
- Assisted senior staff in cross-checking reports to identify discrepancies and anomalies in the system.

PROJECT EXPERIENCE

Marketplace Web Application, *Team Project*

Frontend Developer

- Designed the end-to-end user flow in Figma, mapping the process from user entry to completing a marketplace transaction.
- Implemented the interface using a consistent color palette and responsive UI components to create a user-friendly shopping experience.
- Aligned design and development by translating Figma prototypes into functional pages and refining the transaction flow during integration.

Hospital Information System (Laravel), Academic Project

Fullstack Developer & QA Tester

- Engineered a web-based management system using Laravel and MySQL to handle patient records and doctor scheduling efficiency.
- Conducted rigorous Functional Testing on CRUD operations and verified Role-Based Access Control (RBAC) to ensure data security between Admin and User workflows.
- Designed comprehensive DFD and ERD documentation to map database relationships, ensuring structural integrity and data consistency during development.

Sentiment Analysis on "Free Nutritious Meal" Program, Academic Project

Python Developer (ML Focus)

- Built a sentiment classification script using Python to categorize news articles into support, criticism, or neutral.
- Performed Dataset Preparation, including cleaning and manual tagging, to create a reliable training set.
- Tested the model's output to verify prediction logic and calculated basic Performance Metrics.

Secondhand Marketplace App, Academic Project

Mobile Development Team Project

- Collaborated to build a mobile marketplace application using Android Studio, integrating features for transaction processing and user management.
- Spearheaded the Manual Testing phase for key features like OCR scanning and transaction inputs, identifying and reporting critical logic errors before deployment.
- Created detailed Use Case Diagrams to define user scenarios, utilizing them as the baseline for constructing test cases and bug validation.

ORGANIZATIONS

- **Technology Artisan** – Business & Technology Staff.

Responsible for analyzing tech-business strategies and supporting operational planning.
- **IT Student Association (HMTI)** – Practicum Division Staff.

Facilitated laboratory activities and supported academic programs for fellow students.
- Jan 2025 - Dec 2025**
- Jan 2025 - Dec 2025**

TECHNICAL SKILLS

Manual Testing & Bug	API Testing	Odoo & Laravel Framework
SQL & Data Validation	System Analysis	Android Development Basics
